PROFESSIONAL SUMMARY

Data & Analytics professional with 4+ years of experience spanning data analytics and information security. Currently a Data Analyst at Flipkart, working with high-volume Last Mile Operations data, building Power BI dashboards, automating reporting with Python, and producing operational MIS insights. Strong foundation in **Python, SQL, Pandas, NumPy, EDA, data preprocessing, Power BI and machine-learning fundamentals**, supported by a Professional Data Science Certification. Experienced in turning complex datasets and repetitive processes into efficient, actionable solutions. Seeking **Data Scientist, Junior/Associate Data Scientist, and Advanced Analytics** opportunities.

TECHNICAL SKILLS

Programming	Python, SQL (including advanced SQL/window functions)
Data Science	Exploratory Data Analysis (EDA), Data Preprocessing, Statistical Analysis, Machine Learning Fundamentals
Machine Learning	Clustering, Regression, Classification
Libraries	Pandas, NumPy, Scikit
BI & Visualization	Power BI , Excel (Advanced), Splunk dashboards
Tools & Development	Jupyter, VS Code, GitHub, Google Sheets, Apps Script
AI & Automation	Claude / Claude Code, AI-assisted web-app development, reporting automation

PROFESSIONAL EXPERIENCE

Flipkart (Payroll: Ascent Staffing Solutions Ltd.) — Bangalore, Karnataka August 2025 – Present
Data Analyst

- Analyze **3+ lakh records daily** for Last Mile Operations and prepare recurring and ad-hoc analytics across operational metrics.
- Automated Excel/reporting workflows using **Python**, including data mapping and multi-tracking of shipments, reducing preparation time for a report from **3 hours to 45 minutes**.
- Automated approximately **70% of 20+ operational metrics** using Python, including generation and distribution of summary emails.
- Built **Power BI dashboards** for operational metrics and used OneDrive capabilities to support scheduled refreshes and large-dataset handling.
- Prepared day-on-day, week-on-week, month-on-month and MTD MIS reports, covering metrics such as **fraud, logistics pendency, losses and delivery accuracy**.
- Used Claude/AI-assisted development to build internal web applications and used Google Sheets + Apps Script to cluster-segregate data for relevant teams.

Optum Global Solutions — Noida, Uttar Pradesh March 2019 – December 2021
Associate Data Engineer Analyst

- Conducted security-device log analysis and **SQL ad-hoc querying** to support data-driven insights and reporting.
- Used Apache ZooKeeper, HDFS and HiveQL for data extraction and reporting, including backfilling missing or failed jobs.
- Developed and maintained **Splunk dashboards** and generated actionable reports for cross-functional teams.
- Monitored and analyzed firewall and log data using **Excel and Python**; processed user-access data to identify access patterns and risks.
- Performed quarterly scorecard analysis for organizational devices and delivered reports highlighting security gaps.
- Created and managed the team GitHub site using HTML/CSS, contributing to a reported **15% increase in team efficiency**.
- Managed ServiceNow tickets and IT use cases while maintaining data accuracy and system integrity for client Triple-S.

ValueMomentum — Hyderabad, Telangana July 2018 – February 2019
Software Engineer Trainee (Information Security)

- Analyzed help-desk ticket data to identify recurring issues and support improvements in ticket resolution times.
- Conducted Office 365 access reviews and IT asset security assessments to support compliance and data accuracy.
- Developed custom **SQL queries and Bash scripts** to track user system logon/logoff timings.
- Worked on audits, Office 365, PowerShell and proof-of-concept initiatives involving open-source security tools.

EDUCATION

NIIT University — Neemrana, Rajasthan B.Tech in Computer Science and Engineering | 2014 – 2018
Final-year industry-focused internship at ValueMomentum; developed an information-security request solution connected to an in-house ERP using C, SQL and PowerShell, with automated email/ticket generation.

CERTIFICATIONS

- Professional Data Science Certification Program — 360DigiTMG (2025):** Python, Pandas, NumPy, SQL, EDA, preprocessing, clustering, regression, classification, Power BI.

AWARDS

- Extra Miler — ValueMomentum
- Performance Award — Optum
- Innovation Award — Optum
